Assistant City Administrator Green introduced the Kentucky League of Cities' "Kentucky RX Card" program. The card provides prescription discounts with no strings attached. It is useful for people who are uninsured or underinsured, and can also assist most anyone with prescriptions not covered on other benefit plans. Not only will

it be available to City employees, but to the general public as well. Green also discussed looking at City Ordinances that have become obsolete and to begin deleting or updating them. A recycling grant will be available this year that addresses the need to reduce the amount of cardboard that is sent to the landfill. If the City is given the grant, several small businesses that produce large amounts of cardboard use will be contacted. The businesses that agree to participate in the reduction program may also receive a savings on their monthly dumpster rates.

Director of Public Works and Engineering Hamilton and City Civil Engineer Jessica Filiatreau attended a Kentucky Stormwater Association (KSA) quarterly meeting this morning and received 3 hours of accreditation. Filiatreau was also a presenter and gave a case study on MS4 monitoring of pollutants in “impaired” streams or creeks.

City Electric Engineer Mills reported that mailers would be sent out next week to announce the Digital to Analog conversion project. The Mail-It Center will handle the mailing of the converters to customers that have responded. Mills also mentioned the exceptional work of Utilities Stock Clerk, Jason Tingle. Mayor Sheckles commented that since this new position was filled, the City has benefited by a savings of \$20,000 and could easily see a yearly savings of over \$200,000.
