

CELEBRATE

HISTORIC BARDSTOWN 235 YEARS

The City of Bardstown would like to invite residents to participate in the beautification of historic Bardstown. A tree provides a gift to the whole community, a remembrance of the past and at the same time a renewing of life.

The Beautification Program offers a variety of trees that are indigenous to this area and there are specific trees to be planted in specific areas. A full list of specific trees and designated area map is available upon request. For more information please contact City Hall at 502-348-5947, ext. 2239.
